Telework

Personal Learning Environment	Learning Management System/Virtual Learning Environment
Learner centred – source of control with the learner	Teacher/Facilitator centred – source of control with the institute
Learners are active, self-directed creators of content	Students are passive consumers of content
Learners choose how they will be assessed	Students are provided with assessment events
Learners gather information from many sources	Information is pushed to students
Learners chose a communication method with their facilitator & other learners	Communication methods are within the confines of the LMS/VLE
Take advantage of open source material	Resources are password protected
Learners retain their PLE after enrolment for life-long learning	Enrolment is lost after course completion. Life-long learning limited.
